

# NORTH TO SOUTH

## **IMPCO** KEEPS YOUR RIDE COMFORTABLE.

IMPCO has designed ComfortPro Stand Alone to perform everyday without the need for coolant integration.

No matter where you are in North America, whether it is 110°F in LA or -30° in Calgary, ComfortPro Stand Alone has the capacity to cool and warm your sleeper as well as provides power to your block heater. Why invest in a system that keeps you sweating in the summer and shivering in the winter? ComfortPro Stand Alone will deliver the BTU's you need!

### There is no time limit!

Stop for 30 minutes or 30 hours it doesn't matter. We don't draw down your batteries, we charge them! We never let your main engine get cold, we warm it! IMPCO believes an idle reduction unit should enhance your ability to start your engine, not put it at risk.

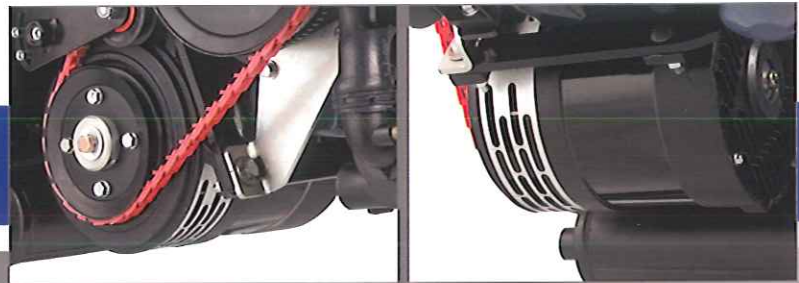

## NATIONWIDE DEALER SUPPORT

IMPCO ComfortPro is offered exclusively through the Carrier Transicold Dealer Network

With 20 years experience, solid engineering, CARB verification and EPA certification, appropriate capacities with no time limits, and a professional North American Service and warranty network makes ComfortPro from IMPCO the most complete package available for idle reduction today.

### FEATURES AND BENEFITS

#### NEW rigorous 6000 Watts Generator and industrial grade Carbon belt system

- Cools the Sleeper
- Heats the Sleeper
- Powers the Truck Engine Block Heater
- Charges truck batteries
- Powers Household items
- Low Voltage Auto Start
- Comfort Monitor Auto Start
- Weather Watch Auto Start
- Programmable Date/Time Auto Start
- 1000 hr oil drain interval
- Improved controller lighting and font for greater visibility
- 12,000 Btu Tecumseh compressor/R134A Refrigerant
- 10,000Btu/h Heating
- 60 Amp DC Battery Charging
- Power Available for Truck Engine Block/Oil Heater
- 3 Vent air distribution
- 2 Year/4000 hrs warranty
- Shore Power Ready

### PC6112 Specifications

| APU (AUXILIARY POWER UNIT) |   |
|----------------------------|---|
| Engine                     | 13.9 hp, 2 cyl Kubota   |
| Oil change interval        | 1,000 hours   |
| Alternator                 | 60 Amps @ 12-14 volts DC  |
| Generator                  | 6KW @ 110/120V, 60Hz AC   |
| Dimensions H/W/D           | 28-1/2" x 22" x (25 + 12 = 37") with air-intake shroud and radiator in rear |
